

BAPTIST  
WORLD  
AID

# THANK YOU FOR DOWNLOADING!

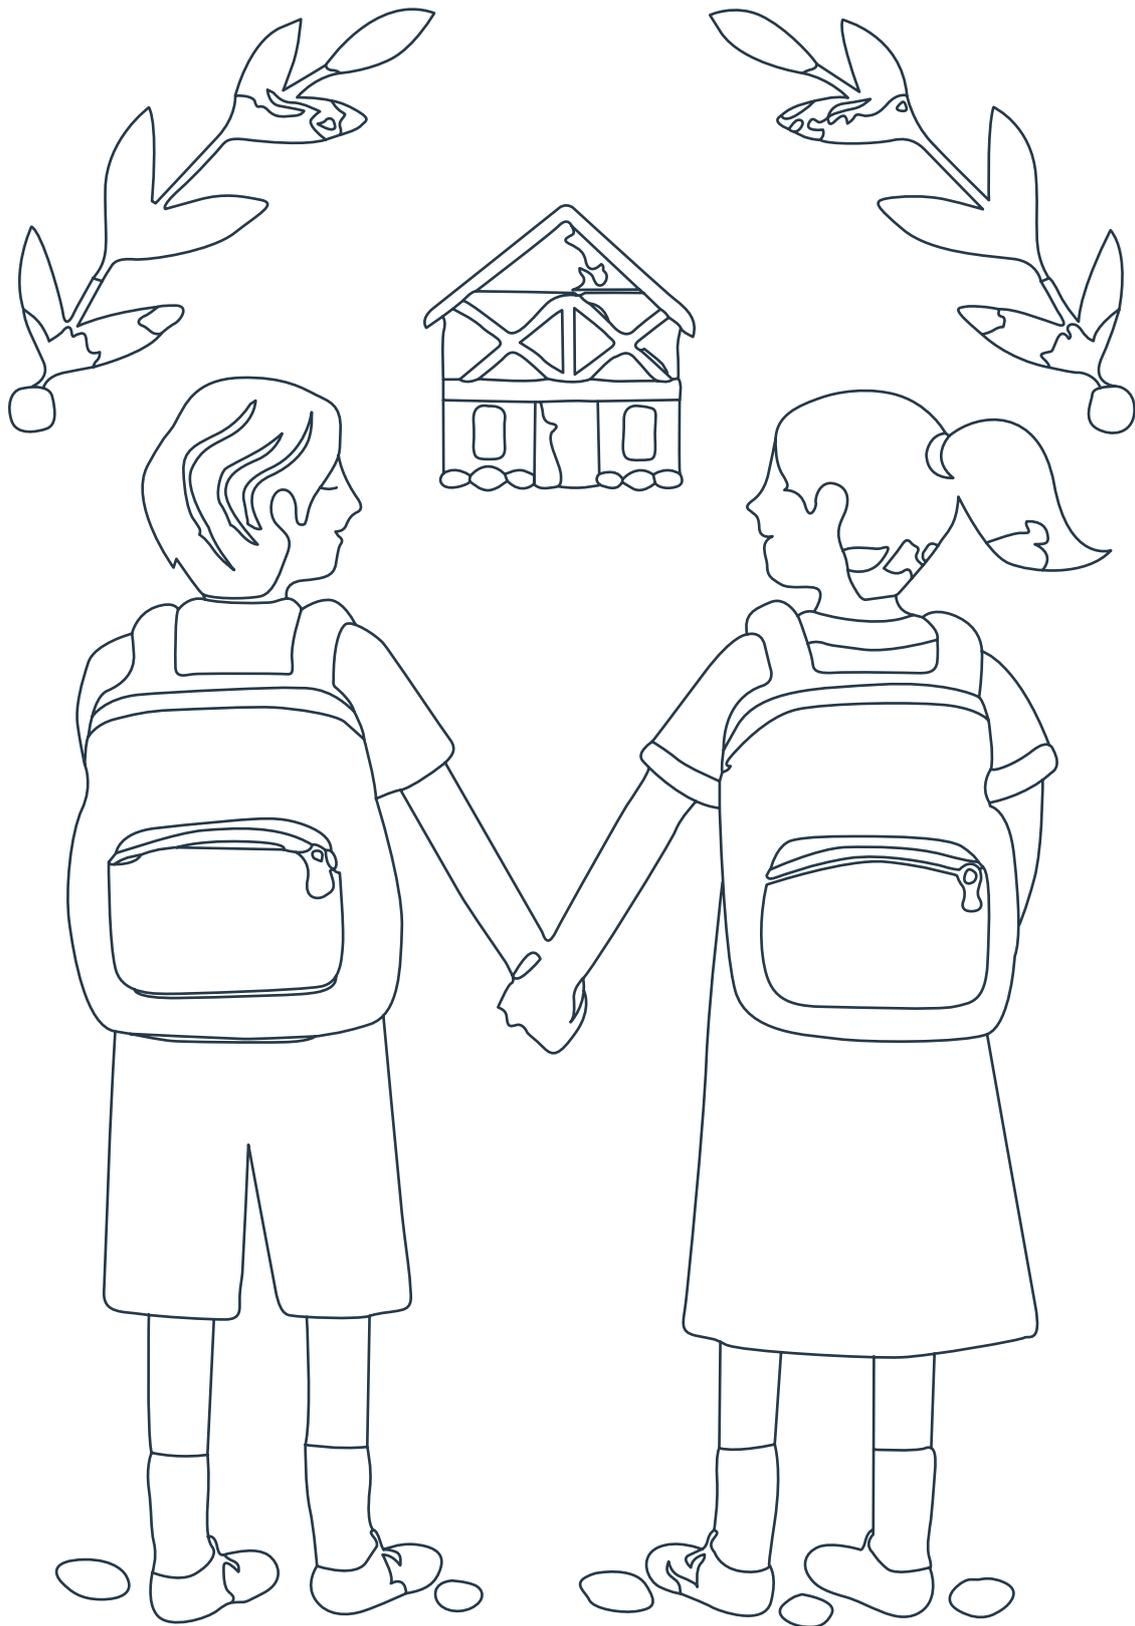

This collection of five colouring sheets and stories is a fun way for children to learn about their world, and the lives of children in different places.

Child Sponsorship changes more than a child's life; it helps whole communities emerge from poverty. From \$52 per month, your Sponsorship can create lasting change for generations.

## She's Busy Learning!

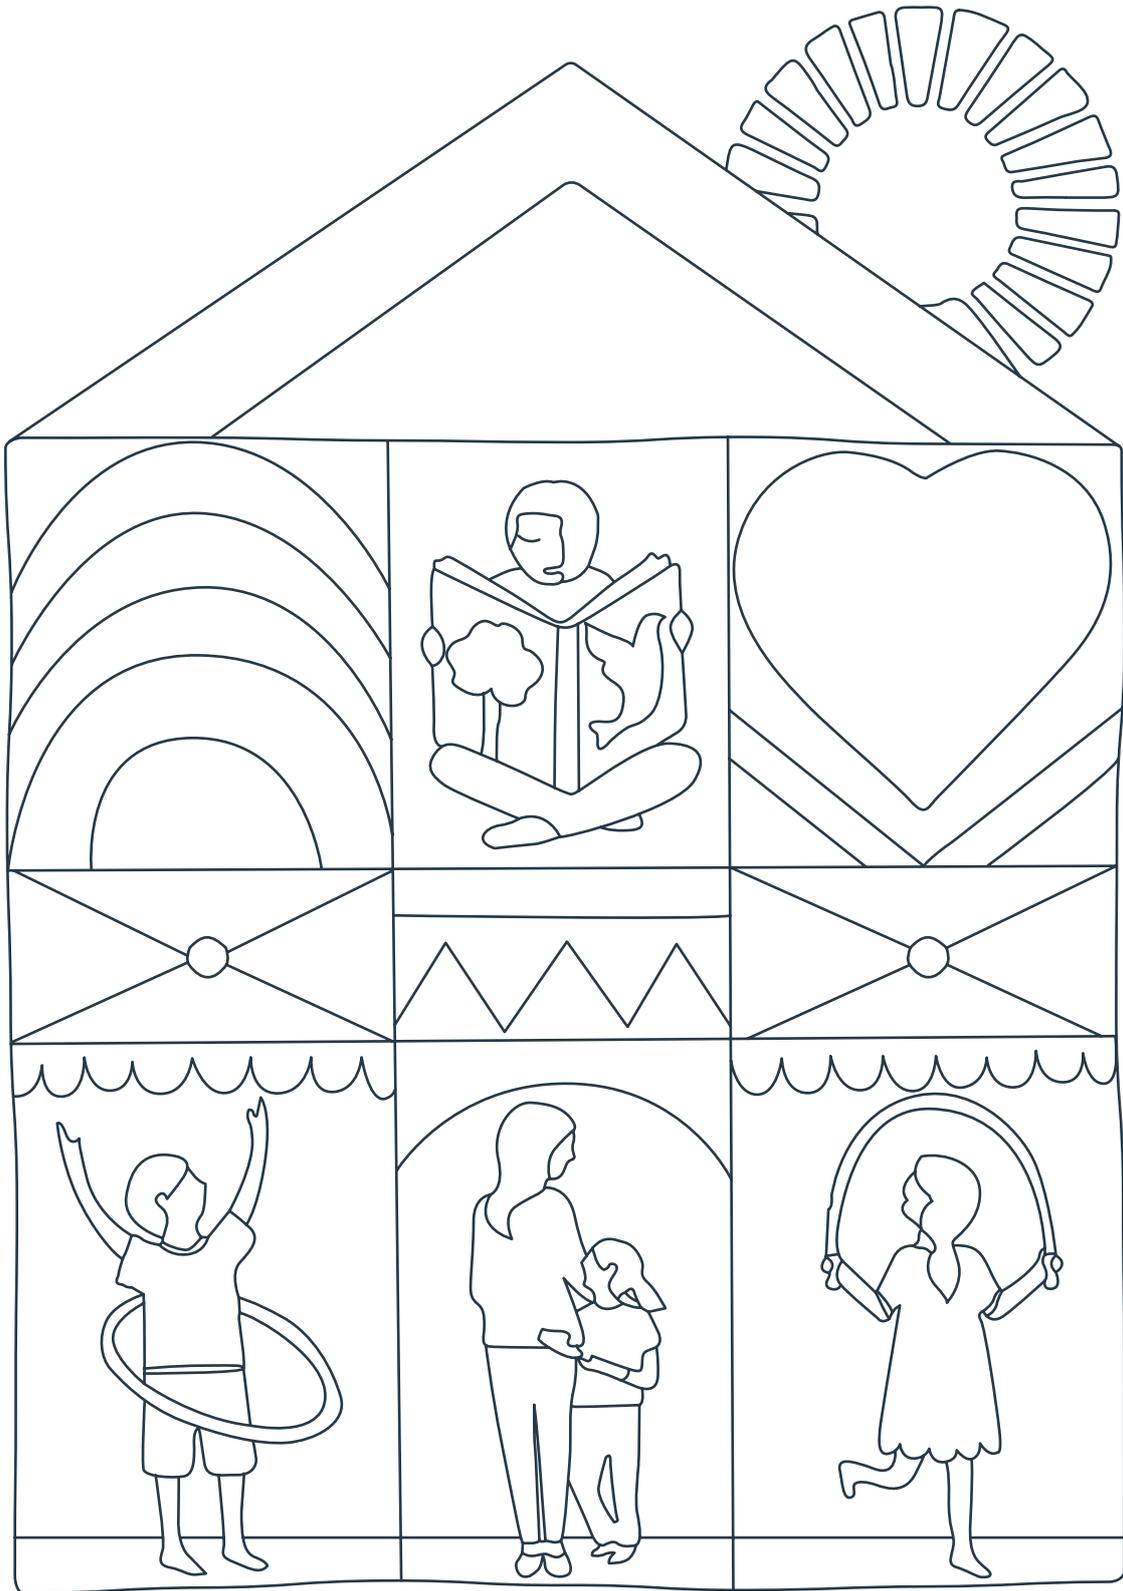

Khusnaj is from Nepal and dreams of becoming a teacher. For that to happen, she needs to go to school.

Did you know that in some places, like where Khusnaj lives, girls don't get to go to school? When Khusnaj started going to a Child Club, her mum and family learnt about how

important school is for girls and boys. Now she goes to school and her mum calls Khusnaj her 'brave genius'!

Do you want to be a teacher when you grow up? Or maybe something else?

**Learning  
And Growing  
With Friends!**

Batsal\* loves to help kids in his community. When he was little, his parents had some problems that meant he didn't go to school each day and wasn't getting the care that he needed.

That was, until he joined a Child Club. He spoke to his parents and they joined a program too where they learnt better ways

to care for their children. This meant his life got a lot better.

Now Batsal is a leader himself. He helps create great places for kids and parents to learn and grow.

Where do you play with your friends?

## Let's Play!

Adroa\* and his friends attend a Child Club where they get to learn through playing, making arts and crafts, and listening to the local leaders.

His mum even comes along to learn! Adroa's mum and dad used to say, 'a child knows nothing'. Now they've learnt how clever kids are, and how important it is that they go to

school. As they grow and learn new skills, Adroa and his friends are becoming leaders in their community. They even make snacks to sell and pay for other children to go to school!

What did you learn at school this week?

**Brrrr ...  
It's Cold  
Outside!**

But Hamid and his family are tucked in nice and warm. Hamid is from Syria where a war meant it wasn't safe for him and his family to stay. They ran away to a nearby country called Lebanon where they would be safe.

In Lebanon, Hamid and his family stay in a camp for with other people who need

somewhere safe to rest. It can get very cold in the camp. But kind people in Australia have given money to buy blankets for families like Hamid to keep them warm while they wait for a new home.

Do you like to snuggle up with a blanket?  
Who is your favourite snuggle buddy?

## Dinner Grown In The Backyard

When Sam was a little boy, his parents didn't have much money and he was hungry a lot. When he became a dad, he wanted to make sure that his kids always had enough to eat. Some gardening teachers helped Sam and showed him how to set up a veggie patch. They also taught him how to take care of it so that his family always have enough food.

Now he grows spinach, mangoes, paw paws, eggplants and more! He grows so much that he is able to sell some fruit and veggies at the market to earn money for things like clothes and school.

Do you like gardening? What fruit or veggie would you like to grow?
